Some of those mentioned above of others sphere of application of DIGITAL GOLD may appear in course of time – upon an initiative of the Company or without the participation and intention of the Company in accordance with blockchain technology. Since the moment of receiving of DIGITAL GOLD by the Purchaser into its ownership for the aim of individual usage, the Company losses the possibility as well as instruments of full influence on DIGITAL GOLD – since that moment DIGITAL GOLD is considered to be Purchaser’s property, and the deal on the creative and transfer of such property form the Company to the Purchaser is considered to have been paid and legally closed. DIGITAL GOLD is proposed for utilitarian usage in the capacity of service fee payment only (“Nugget”, “Transactional Nugget”) in other independent product of the Company – Digital Gold Laboratory. Co., Ltd. platform and its derivatives (“Platform”). Transactional Nugget in the capacity of DIGITAL GOLD is necessary to the Digital Gold Laboratory. Co., Ltd. system for making and confirmation of transactions. Usage of Platform, including, but not limited to usage of DIGITAL GOLD in Platform are guided by separate agreements with Digital Gold users. Digital Gold project will be issued in 2018. Company

reserves the right to amend any of Platform features announced during coin sale if ground of such amendments is insuperable and they could not be prevented by the Company. For example, the reason for such a correction could be legislation amendments, court decisions, amendments into politics of credit organizations and payment systems. So, DIGITAL GOLD product is one of the type of permanent tickets (certificates, coupons) for making of specified transactions on Platform in the future. That is why repeated usage of one and the same DIGITAL GOLD for payment of Nugget is not permitted. And for this reason, the Company only registers and cancels (redeems, satisfactions) DIGITAL GOLD within a framework of Platform when DIGITAL GOLD is used as Nugget, i.e. DIGITAL GOLD is considered as digital assets or virtual currency. (i) Digital Gold Laboratory. Co., Ltd. has the right to enter into agreement with any of Purchasers on special conditions (including commercial conditions) which may be different from those stipulated by this Terms.

3. Purchase Procedure. Purchase procedure will largely depend on the time of transfer of the funds for the purpose of the Coins purchase:

(a) Purchase of DIGITAL GOLD requires a creation of the Account on the Site.

(b) If you transfer the fund for the purpose of purchasing DIGITAL GOLD to your Account on or before Coin Sale finished, the funds will be treated as a deposit and you would be required to manually complete the purchase due to the additional bonuses available for purchases over certain amounts. If you fail to purchase DIGITAL GOLD at the time the bonuses are offered, you would be deemed to purchase DIGITAL GOLD at the highest price available at the end of the coin sale. The number of purchased DIGITAL GOLD shall be determined based on the total amount you used for the purchase of the DIGITAL GOLD with

applicable bonuses available to you, and/or total amount of your transfer you made for the purpose of purchasing DIGITAL GOLD if you fail to make a purchase during the time when bonuses were offered.

(c) If you transfer funds for the purpose of purchasing DIGITAL GOLD to your Account on or after January 5, 2018, your funds will be treated as a payment for DIGITAL GOLD and bonuses available at the time of payment will apply to your purchase automatically when receipt of your payment is confirmed. The number of purchased DIGITAL GOLD shall be determined based on the total amount received by Company for the purpose of purchasing DIGITAL GOLD and applicable bonuses available to you at the time of receipt of your payment.

(d) You understand if at the end of coin sale, the balance of your account is less than sum which is equivalent of cost per one coin those sum is transferred to ownership of Company as its revenue, because refund of such a sum to the Purchaser would mean the losses which are bigger (for Company as well as for the Purchaser) than such sum on Purchaser's account.

(e) After the distribution of DIGITAL GOLD, you are required to provide an address of the DG Wallet, where your purchased DIGITAL GOLD would be distributed to and complete necessary steps to connect your DG Wallet to the Account according to the instructions placed by Company in your Account prior to the distribution of the DIGITAL GOLD. The DG Wallet in HP must be used as standard. For any assistance with the DG Wallet, Purchaser shall contact support@digitalgold-laboratory.com.

(f) Following the successful purchase, the information about purchased DIGITAL GOLD will be reflected within 72 hours in your Account and DG Wallet if provided by you inside of your Account. The purchased DIGITAL GOLD would be available for withdrawal upon distribution by Digital Gold Laboratory. Co., Ltd. as set forth in Sections 4 and 5 of these Terms.

4. Timeframe of Distribution.

(a) After confirmation of receiving funds, DIGITAL GOLD is distributed instantly to the Purchaser's DG Wallet: 1) maturing of last stipulated day of public sale of DIGITAL GOLD; 2) sum of selling of DIGITAL GOLD is equal to the one stipulated by Hard Cap. 3) operation of maximum technical limit of DIGITAL GOLD issuing. 4) on any other ground which was not provided previously. Such distribution of DIGITAL GOLD does not require a separate application from the Purchaser to the Company. The Company can process DIGITAL GOLD purchases during payments are processed with considerable delay. The Company starts to cancel still outstanding income if their total value after end of coin sale has already exceeded 20% of Hard Cap.

(b) In the special context of the good the transfer of DIGITAL GOLD to DG Wallet provided by the Purchaser in Account on the Site is the event and fact of successful delivery of good to the Purchaser by the Company and considers as confirmation of accepting of respective quality good in respective volume by the Purchaser from the Company. From that moment the deal on sale of DIGITAL GOLD between the Company and the Purchaser is considered to have been closed with the all of characteristics of finality, unconditionality and irrevocability of this deal, and Parties' obligations is considered to have been performed in a proper way and fully. This term does not depend on the current condition of DIGITAL GOLD (whether they are active or inert in accordance with subparagraph d) of this paragraph) or condition of term of DIGITAL GOLD receiving (before maturity or on time in accordance with subparagraph a) and e) of this paragraph). DIGITAL GOLD must to be the variety of digital property which operates on blockchain in accordance with the standards and guidelines digital property of its kind with all the consequences that come with it – this is basic characteristic which ought to be in accordance with the DIGITAL GOLD as the good to satisfy the needs of the Purchaser in its purchase from the Company. Both Parties of these Terms of Coin Sale agree and stipulate that from the moment of transfer of DIGITAL GOLD from the Company to the DG Wallet provided by the Purchaser in its Account on Site, the company and the Purchaser have no claims and demands against each other.

(c) Distribution of DIGITAL GOLD is carried out a)if only the Purchaser gets DG Wallet in the Site (in accordance with paragraph 5 of these Terms of Coin Sale) necessary for receiving of DIGITAL GOLD. In case the Purchaser did not registered DG Wallet at the time of coins distribution stipulated by subparagraph a) on this paragraph, all coins bought by the Purchaser are transferred to the Company temporary storage until claiming of such DIGITAL GOLD personally by the Purchaser. For the aim of such late claiming the Purchaser can send an email which was used for registration of Account on Site. Such late claiming is possible during one calendar year since the end of coin sale. After expiring of that time DIGITAL GOLD paid by the Purchaser are considered to have been unclaimed and shall become property of the Company. In some troubles, on the last day before the end of DIGITAL GOLD issue those DIGITAL GOLD which have not been transferred into DG Wallet of their owners are counted irrespective of whether there is activity (unblocking) or inactivity (blocking) of such DIGITAL GOLD at the time referred. After that respective number of DIGITAL GOLD is issued by one transaction into DG address in DG Wallet. DIGITAL GOLD unclaimed in the time stipulated by subparagraph a) on this paragraph as well as the actions with DIGITAL GOLD taken by the Company on the conditions of this paragraph have the same legal implications in respect of completeness and undeniability of deal which is stipulated in subparagraph b) By reason of the Company has possibility of single-shot issue

of DIGITAL GOLD only during coin sale and within of certain restrictions (as in regard of the sum as well as in respect of maximum amount of issued coins which is regulated by the company). So, purchasing of DIGITAL GOLD in itself by some of Purchaser even without of transfer of DIGITAL GOLD into some DG Wallet affects irreparably on commercial activity of the Company, coin sale process and profiting from coin sale. Knowing that, the Company ask the Purchaser not to buy DIGITAL GOLD if the Purchaser doubts in worthwhileness in such buying in order for “not take the seat” of other Purchaser, since “amount of seat” is severely restricted and limited.

(d) In case of DIGITAL GOLD didn't transferred to DG Wallet and finished sending funds can be confirmed in any blockchain referrer, the Purchaser has the right to submit a request to the Company for transfer of DIGITAL GOLD coin bought by it from its Account on the Site to the DG Wallet provided by the Purchaser. The Company has the right to reply to the request for an indefinite amount of time. The transaction between users in the DIGITAL GOLD blockchain is rocked because it should not occur before DG EXPLORER (similar functions as Etherscan) has launched in July 2018. Such Purchaser request means accelerated phase-out of DIGITAL GOLD purchase cancellation right as well as cancellation of refund sum paid by the Purchaser for respective DIGITAL GOLD in accordance with information in the Account on the Site, since all the DIGITAL GOLD transaction and blockchain cannot be cancelled, refunded or corrected in some other way. This is the one of key feature of DIGITAL GOLD as good which known for the Purchaser and with which it agrees and understands. Sending of such request by the Purchaser to the Company among others is order of the Purchaser for early onset of all the events provided by subparagraph b) of this paragraph. The Company has the right to impose restrictions in regard of minimal purchase of DIGITAL GOLD which the Purchaser may receive prematurely in accordance with this paragraph. In such cases DIGITAL GOLD will be transferred in DG Wallet provided by the Purchaser within the time-limit fixed by the subparagraph a) of this paragraph, despite Purchaser's requests sent to the Company. These restrictions are related with the expenses in cryptocurrency DIGITAL GOLD for initial issuance of DIGITAL GOLD in DG Wallet, which the Company bears under rules of DIGITAL GOLD.

(e) The Company has the right to deliver DIGITAL GOLD in DG Wallet provided to the Company by the Purchaser initially in inactivated (blocked) form for the aims of countering of fraud and speculation on DIGITAL GOLD, as well as for possibility to correctly finalize all the settlement before the definitive finalization of issue of DIGITAL GOLD (further inaccessibility of this possibility for the Company). This temporary circumstance does not effect on global properties and only means the impossibility of making further transactions of DIGITAL GOLD from DG Wallet for a certain period of time. The Company one-time

activates (unblocks) all the issued DIGITAL GOLD at a time provided by subparagraph a) of this paragraph. DIGITAL GOLD can be inactivated (blocked) only at the moment of their initial issue and activation (unblocking) of DIGITAL GOLD can be performed only once without the possibility of deactivation (blocking) of activated (unblocked) DIGITAL GOLD. Information about current conditions of DIGITAL GOLD may be taken from DG EXPLORER which launched in June 2018.

(f) Transactions of DIGITAL GOLD into DG Wallet provided by the Purchaser are subjected to number DIGITAL GOLD priorities system. The more DIGITAL GOLD the Purchaser is going to withdraw the more priority is given to such an operation on getting of DIGITAL GOLD by such Purchaser among others purchasers in the queue of operations which the Company forms in DIGITAL GOLD blockchain. Concrete term for getting of DIGITAL GOLD into DG Wallet which the Purchaser indicated in its Site Account is not regularized. The Company does its best to do this as soon as possible but it depends on possibilities, load and stability of DIGITAL GOLD blockchain. If there is inaccessibility, failures or crashes of DIGITAL GOLD blockchain and impossibility of well-timed transferring of DIGITAL GOLD in time provided by subparagraph a) of this paragraph, then further interaction with the Purchaser in regard of getting of bought DIGITAL GOLD will be carried out by the company under the terms set out in subparagraph c) of this paragraph.

5. Receipt of DIGITAL GOLD

(a) On the date of distribution, purchased DIGITAL GOLD will be distributed by Company to the DG Wallet of the Purchaser if one is provided, or become available for withdrawal in the Account. Failure to provide a correct address of the DG Wallet will result in the loss of purchased DIGITAL GOLD, which shall be the sole responsibility of the Purchaser. Failure to provide the DG Wallet or to complete its set up, will delay the withdrawal of the purchased DIGITAL GOLD, which shall be a sole responsibility of Purchaser. Purchaser shall be responsible for implementing reasonable measures for securing the DG Wallet, vault or other storage mechanism Purchaser decides to use to receive and hold Coins outside of the Account, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If Purchaser's private key(s) or other access credentials are lost, Purchaser may lose access to the purchased DIGITAL GOLD. Company shall not be responsible for any such losses.

(b) The Purchaser is obliged (and guaranties in full its material obligation) to perform refundment of DIGITAL GOLD in favor of the Company which were superfluously or mistakenly obtained in number equal to such superfluously or mistakenly obtained DIGITAL GOLD. Such situation may take place be due to the technical failure of Company's systems

which provide issue and distribution of DIGITAL GOLD to their Purchasers. The Purchaser has the right to ask the Company for compensation for commission fee which is charged in DIGITAL GOLD blockchain because of and after respective refundment of such DIGITAL GOLD (given that the fee mentioned above does not exceed average values recommended by DIGITAL GOLD blockchain at the time of DIGITAL GOLD refundment). The Purchaser is obliged to transfer DIGITAL GOLD back during 5 calendar days from the day of sending of Company claim on respective refundment (the Company will provide its BTC, ETH, XRP address for such transfer of DIGITAL GOLD) to the Purchaser's email which is a login for Purchaser's Site Account. The Purchaser transfers DIGITAL GOLD which were superfluously or mistakenly obtained to the Company when they are activated (unblocked) if at the time of receiving of Company's claim such DIGITAL GOLD still are not active (blocked).

(c). The Purchaser knows organization and principles of two-factor authentication technology (2FA) using email. The Purchaser bears risks of loss of access to his funds and purchased DIGITAL GOLD at the time of turning on of 2FA which the Purchaser turns on in its Site Account. The Company does not compensate to the Purchaser its material losses resulting from loss of access to its Site Account owing to operation of 2FA which has been launched by the Purchaser.

6. Terms and Conditions of DIGITAL GOLD.

Also, the DIGITAL GOLD terms and conditions are as set forth in the White Paper (since it is custom for blockchain community in respect of sale of goods which are similar to DIGITAL GOLD) located at <http://www.digitalgold-laboratory.com/index.html>, which terms are incorporated hereto by reference.

In such case, Company will issue a refund in the same form of payments as was made by you and to the same wallet address, bank account, or a third-party payment processor where your funds were transferred from. We may deduct the transaction cost from the refund amount, if any. At least, this is the cost for payment receiving through CoinPayments.Net (0.5% of the payment amount) + the cost for

the outgoing transaction from us in the blockchain of a certain cryptocurrency at the moment of sending the funds or \$65 for refund in USD + the cost for converting of any other cryptocurrency to BTC (commission and rate) based at CoinPayments.Net tariffs or, on discretion of the Company, re-count of cryptocurrency calculated at the current BTC exchange rate (since Coins are evaluated and sold on the Site for bitcoins).

(b) On security grounds the Company has the right to refuse to return payments made by you as the deposit of funds, if the payments details of their sending to us are different with the requisites given by you for receipt of the requested refund. The Purchaser shall be solely liable for the risks of losses of its funds in relation with mentioned Company right (for example, in most cases of transferring of funds from exchanges the subsequent return into exchanges addresses leads to loss of funds).

(c) The Company has the right to refuse the Purchaser to cancel the purchase of DIGITAL GOLD which have not been transferred to DG Wallet provided to the Company by the Purchaser if since the day of the purchase 5 business days have passed or 5 business days remain until the end of coin sale. This fact is due to public characteristics of coin sale, which provide for the Company the possibility of gaining of profit from issue of DIGITAL GOLD in limited value and once for all the time of existing of DIGITAL GOLD. The sale of DIGITAL GOLD even without their transfer to DG Wallet reflect on statistical measures of coin sale. In case of delay of cancel of accomplished purchase DIGITAL GOLD the losses of the company may exceed the amount of funds refunding by the Purchaser owing to risk of loss of profit.
